

Cultivating Pedagogical Sovereignty:

Designing, Implementing and Studying Land- and Water-Based Learning Environments

by Dr. Megan Bang

12-1:30pm CT, April 29th

Concerto Room (241B)

Gordon Dining and Event Center

[In-Person Option](#) [Virtual Option](#)

Dr. Megan Bang (Ojibwe and Italian descent) is a Professor of the Learning Sciences and Psychology at Northwestern University and is currently serving as the Senior Vice President at the Spencer Foundation. Dr. Bang studies dynamics of culture, learning, and development broadly with a specific focus on the complexities of navigating multiple meaning systems in creating and implementing more effective and just learning environments in science, technology, engineering, arts, and mathematics education. She focuses on reasoning and decision-making about complex socio-ecological systems in ways that intersect with culture, power, and historicity. Central to this work are dimensions of identity, equity and community engagement.

****This event is sponsored by the School of Human Ecology Indigenous Ecowell Initiative, American Indian Studies Program, Department of Curriculum and Instruction, Department of Educational Policy Studies, School of Education Office of Equity, Diversity, and Inclusion (OEDI), Native Nations_UW, Nelson Institute of Environmental Studies, and Wunk Sheek.***
